

The media should be as diverse as possible to maintain a free press  
Otherwise there shall be no freedom,we the public are only as free  
as the "truths" we are being allowed to hear,no single company should  
ever be allowed total control as it would then become a regime.

If there is no truth there is no freedom!

After the recent events of 9/11 the USA is being seen by the rest of  
the world as a totaltarian state whose only wish is to suppress anyone  
whom it sees as a threat.

In fact the USA needs to release it's grip on the rest of the world or  
else it will pay the consequences.
